CORE SKILLS

JavaScript TypeScript React

Next.js Node.js Express

React Native Flutter Python

Django .NET / C# REST APIs

Tailwind CSS HTML / CSS

DATABASES & TOOLS

MongoDB PostgreSQL

MySQL SQL Server Firebase

Git & GitHub GitHub Actions

Postman Figma Linux

Sanity CMS

AI & INTEGRATION

Gemini API Groq / Llama

LLM chatbots JWT & RBAC

EDUCATION

BSc Software Engineering

Amoud University · 2023 – 2026

Graduated with Honours

BSc Project Management

Alpha University · 2022 – 2025

Diploma, Education & Psychology

Gollis University · 2022 – 2023

LANGUAGES

Somali Native

English Professional

AYOUB JAMA KHALID

Software Engineer · Full-Stack & Mobile Developer

Honours graduate in Software Engineering and full-stack developer who builds web, mobile and AI-powered products end to end: React / Next.js and React Native interfaces, secure Node.js and .NET REST APIs, and the SQL / NoSQL databases behind them. Three engineering roles, a 1st-place university hackathon and Meta's Full Stack Developer certification.

EXPERIENCE

Full Stack Engineer · Loola AI

Jan 2026 – Present

Part-time · Hybrid · Somaliland

- Build and maintain web and mobile product features across the front end (React, React Native) and back end (Node.js REST APIs).
- Own features from requirements analysis and API integration through testing, release and documentation.

Web Developer · E-xisaabi

Dec 2025 – Jul 2026

Part-time · Remote

- Built responsive, accessible web interfaces with a focus on clean layout, usability and performance.
- Connected front-end views to back-end services and improved user-facing digital services for real customers.

Quality Assurance Specialist · Ramaas

Jan 2025 – Dec 2025

Hybrid · Garowe

- Tested web and mobile application features for functionality, usability and quality; reported and verified bug fixes.
- Documented QA results and test cases; this testing discipline shapes how I build today.

SELECTED PROJECTS

AI-Powered Multi-Role Food Delivery Platform

Multi-role ecosystem with RBAC, real-time dashboards and an AI chatbot assistant.

TypeScript · React · Node.js · MongoDB

Market Price Comparison & Availability System

Compares product prices across markets, sends price alerts and answers questions with Gemini AI.

MERN · Gemini API

Smart Stationary E-commerce

E-commerce web app: catalogue, cart and orders on React + ASP.NET Core API.

React · C# / .NET · MongoDB

Restaurant Ordering App

Cross-platform mobile ordering experience with menus, cart and order tracking.

React Native · Expo

ACHIEVEMENTS & RECOGNITION

- Graduated with Honours** in Software Engineering (BSc).
- 1st place, university hackathon** — built and presented a working product with a team under time pressure.
- University scholarship** awarded for strong academic performance, among the top students.
- Somali-language AI data contributor** — helped collect Somali language data for more inclusive AI systems.
